City of Rialto Kidstuff is the place to go. Where there's lots of fun & creativity,

Kidstuff is the place to be. We have fun, play outside, summertime we slip n slide. So just come on down & take a look around, Kidstuff's the hottest place in town. Tell your Mom to get your Dad. See where fun times can be had. It's so neat our prices can't be beat. Kidstuff is the place for me!

Previous Graduate

The Class of 2010 Graduation

On Wednesday, June 23, 2010, the Kidstuff Preschool

at the Preston Elementary School site and the Tiny Tots program, will host its Annual Graduation Celebration at 7:00 pm. This special event

will take place at the Community Center. The Class of 2010 will graduate six preschoolers and eight Tiny Tot children.

Sophie Arias, Executive Secretary, will provide entertainment for the

audience and the children will march in to her lovely voice. Sophie will sing a song in Spanish and another selection in English. Sophie has been gracing our graduates with her beautiful voice for the past six years!

Picture This...

On Wednesday, May 12, 2010, the Kidstuff Preschool at the Preston Elementary School site traveled to the Community Center to join the Tiny Tots children for picture day. All of the children took pictures; however, the 2010 graduates took pictures in their caps and gowns! An additional picture day was added to the schedule this year, (May19, 2010) to accommodate graduates that missed the first picture day.

Kids Cool Off with Water Wars

By Terre Ermitano

Water Wars visited the Curtis site on Wednesday, May 19, 2010. Water Wars is a family operated company manufacturing and distributing the patented Water Wars game since 1989. This safe, interactive attraction provides the ultimate water balloon experience for children. Water Wars can be played as a fun game or as fierce competition between challengers. The game begins with each player to opposing battle stations with buckets of water balloons. Each battle station has a water balloon launcher. You place a balloon in the launcher; pull down on the handle, aim and fire. Your balloon soars high through the air and comes crashing down on your opponent's battle station. There are strategically placed slots and holes in the structure that allows the water to come through. As a participant you might get sprinkled, sprayed, or saturated with water. The students had a blast participating in this high energy special activity. Water Wars has always been a program favorite for sudents during the hot final weeks of the program. Throughout the month, Water Wars also visited Bemis, Casey, Garcia, Hughbanks, Kelley, Meyers, Morgan, Morris, Simpson and Werner. All sixteen sites will be visited one time before the end of the school year.

Recognizing our Moms

By Jessica Perez

Mom has always been an important staple of the program. This year was no exception. Students prepared craft activities for their Moms during the week of May 3rd for Mother's Day on Sunday, May 9th. Students were engaged in a variety of projects to give to their mothers as gifts. To start the week, students talked about their mothers and discussed why it is important to thank them for everything they do for their family. Another activity allowed students to make a list of things they could do for their moms to make them feel special. Students made coupon books, Mother's Day Cards, Tissue Paper Flowers, and wrapped sand candles in tissue paper throughout the Elementary, **Program** Dollahan Lead Facilitator Pamela Santos and her staff Ceci Pinones, Bonnie Crum, and Aeshrraff **Dabbas**, photographed their students with their Moms and their gifts. During the month of May their pictures were displayed at their site to express their appreciation for their moms. Staff had a great time facilitating students with these projects. The students enjoyed making their projects and all of the Moms were pleased with their efforts and the aifts.

Mad Science Visit the After School Program

By Joe Ross

The staff of Mad Science Inland Empire visited all 16 after school sites during the month of May. The special programs focused on Drv Ice. Participants learned the 3 states of (solid, liquid matter and gas). Students learned from the "Mad Scientist" that the temperature of dry ice is less than one hundred degrees below zero and, as tempting as it was, they shouldn't touch it with their bare hands or they would likely have a bad case of frost burn. Scientist placed small pieces of dry ice in a balloon and shook it. As the ice released carbon dioxide, the balloon expanded and eventually popped the balloon. In the final experiment, the students placed plastic cups over the top of beakers of dry ice in water and as the pressure increased, the cup would shoot off of the beaker. This hands-on experience was a favorite of the students. For a few sites, this is the second visit of Mad Science to their site. The participants had lots of fun learning about science using everyday tools.

Senior Center Update

The Arts and Crafts class is very popular and creating great works of art. The club had a wonderful Cinco De Mayo/Mother's Day celebration on May 6th with live entertainment and delicious refreshments.

Vista Cove Senior Living has offered to sponsor the Senior Center Birthday celebration the last Thursday of each month during the lunch program. In addition, Vista Cove is also offering blood pressure screening the 1st and 3rd Wednesday of each month.

The Poker Club started meeting again and is well received. The club meets on Fridays at 12:30pm.
